**FOR IMMEDIATE RELEASE**

## **Cortex Medical Management Reaches the First Milestone Toward Achieving the Certified for Microsoft Dynamics Accreditation**

[*SEATTLE, WA — JUNE 1, 2010 —*] Cortex Medical Management announced today that its Revenue Cycle Management Plus, a flexible, comprehensive medical billing software system has passed the Software Solution Test for Microsoft Dynamics, which is a major requirement for Certified for Microsoft Dynamics® status.

Certified for Microsoft Dynamics is Microsoft Corp.'s highest standard for partner-developed software. This certification represents a significant step in elevating the standard for partner-developed software solutions for industry-specific business applications. Solutions with a successful software test have demonstrated development quality and compatibility with the Microsoft Dynamics product. VeriTest, a service of Lionbridge, performed independent and rigorous testing on the solution's integration with Microsoft Dynamics. Cortex Medical Management has also earned the Microsoft Certified Partner designation with the ISV Competency.

“By requiring the software solution to meet our highest standards, Microsoft is assuring customers that these certified solutions work with their investments in Microsoft Dynamics,” said Doug Kennedy, vice president, Microsoft Dynamics Partners. “Microsoft congratulates Cortex Medical Management on the software test results and wishes it success in earning the Certified for Microsoft Dynamics designation.”

Revenue Cycle Management Plus manages the medical billing process from patient entry through collections with patient centric billing, fast charge entry, claims data checker, automated claim and patient payment posting and numerous on demand aging and management reports.

### **About Microsoft Dynamics**

Microsoft Dynamics is a line of financial, customer relationship and supply chain management solutions that helps businesses work more effectively. Delivered through a network of channel partners providing specialized services, these integrated, adaptable business management solutions work like and with familiar Microsoft software to streamline processes across an entire business.

### **About Lionbridge**

Lionbridge Technologies, Inc. (NASDAQ: LIOX) is a provider of globalization and offshoring services, including VeriTest software testing services. Based in Waltham, Mass., Lionbridge maintains solution centers in 26 countries and provides services under the Lionbridge and VeriTest brands. To learn more, visit <http://www.lionbridge.com>.

### **About Cortex Medical Management**

*Cortex serves anatomic pathology laboratories and the healthcare community nationwide with lab management and medical billing systems. With its end-to-end solutions, Cortex provides pathology labs with everything they need to deliver and collect for their services. Cortex's system is flexible—with easy retrieval of data and customized reporting at every stage—allowing each laboratory to optimize the system to meet their specific needs. With streamlined, hands-on implementation and personalized training and support, Cortex works collaboratively with laboratories to serve their customers—both healthcare providers and patients—and meet their business objectives. Cortex systems have been installed in more than 100 pathology laboratories across the country and two overseas. Cortex is a licensed Microsoft Certified Partner, headquartered in Seattle, WA. To learn more visit <http://www.cortexmed.com>.*
